Amount of EDF contribution: € 2 400 000 (or 80 %)

#### Background

In the ACP countries the audiovisual landscape is undergoing rapid change, linked to the rapid increase in population and the rise of a middle class and its desire to be educated and entertained: an explosion in the consumption of audiovisual content, particularly on the Internet and on paid or free online platforms. In this context, viewers want to have an alternative to the Hollywood offer and see films with content closer to their social and economic environment and in which they can identify with.

#### Objectives

- Increase funding for ACP film and audiovisual works supported by the «Aid to World Cinemas» and the «Fund for Young Francophone Creation» schemes;
- Encouraging the structuring and professionalisation of the sector.
- Building the capacity of professionals;
- Accompanying ambitious, high-quality works and encouraging their circulation;
- Stimulating the creation of new jobs;
- Promoting cultural diversity across ACP countries.

#### Axes of intervention

- Financial support at the production stage;
- Support for projects at the development stage through writing residencies;
- Organisation of co-production markets and workshops for professionals on the fringes of international festivals.
