Background

The funding programme of the World Cinema Fund (WCF, WCF Europe, WCF Africa) offers different possibilities of support for production and distribution and promotes pluralism in the international film industries. The additional support granted under the new WCF-ACP Fund will play a crucial role in the implementation of local projects in these regions.

Objectives

- Supporting audiovisual production (film fiction, documentaries and animated films) by increasing the number of funding opportunities allocated to selected co-production projects;
- Encouraging co-productions between European producers and ACP directors, especially from countries with little international experience.

Axes of intervention

- Financial support for audiovisual co-production projects: audiovisual or multimedia works;
- Support and capacity building;
- Networking of producers.
