BUDGET:	EUR 90 700 - EU FUNDING: EUR 90 700 (100 %)
WEBSITE:	https://movart.co.ao/

The **Nzinga Residency - MovArtSocialProject** aims to connect and support the emerging art scene on the African continent by giving it a showcase and global recognition.

As part of this project, three residencies were organised in the Angolan capital, Luanda, combining music and visual arts. These residencies aimed to generate a real exchange and act as a source of inspiration for the artists, as well as being an incubator for artists capable of communicating with a young audience through workshops and open studios.

The artists' work was presented to the public as part of an art exhibition where it could be sold by the MOVART gallery, whose mission is to introduce the world to contemporary art produced in Africa and by African artists from the African and Portuguese-speaking diaspora.

The artists who took part in the residencies were able to take part in a number of major international events, including ARCO Madrid 2023, Cape Town Art Fair 2023 and an exhibition at MOVART in Lisbon, with the ultimate aim of creating jobs in the cultural sector, particularly in the field of contemporary art.
