The **Sanaa Pamoja** – Unity in the arts – project aims to develop the skills of young people, particularly young women, who are involved in the arts and culture.

Trainers and visual artists such as painters, illustrators, photographers and filmmakers have been recruited. Their knowledge and skills have been enhanced in terms of producing and marketing their works and products. Project beneficiaries have had access to training in leadership, communication, the use of information and communication technologies (ICTs) and human rights education. To this end, a digital application has been developed.

In addition, several monthly and annual public events have been scheduled. An online gallery and a physical art print and merchandise shop have been set up at Nafasi Art Space, enabling project participants to sell their work and raise the profile of Tanzanian art nationally, regionally, and internationally.
