The '**Animae Pitch Deck Finishing Accelerator**' project aims to prepare Caribbean content creators for funding opportunities and provide them with a professional Pitch Deck that meets international standards so that they can become competitive in the content development market.

In this context, candidates will be recruited for a number of positions (scriptwriter, art director, illustrator, financial advisor, and entertainment lawyer), and online preparation and awareness-raising will be carried out to promote the project.

In addition, an online collaborative platform will be created, as well as a 5-day immersive acceleration programme during the Animae Caribe Festival 2023. Participants will receive intensive training, mentoring, and advice on developing their projects.

Finally, the creators of the three best projects will be able to pitch to investors and sponsors in a bid to attract them.
