BUDGET:	EUR 38 776 - EU FUNDING: EUR 24 928 (64.29%)
WEBSITE:	N/A

The '**Top 10**' project aims to provide insight into the significant dissemination of works from various artistic disciplines at Galerie Medina.

Galerie Médina, open since 2011, plays a vital role in creating an emerging market for Malian and African contemporary art by promoting and selling high-quality works in Mali, Africa, and worldwide.

In this context, 2022 was an opportunity for Galerie Medina to embark on an extensive artistic introspection, resulting in a project for an exhibition that serves as both a retrospective of the past ten years and a preview of the next ten years.

As such, a selection of ten artists, spanning different generations and including both emerging and established artists, was chosen to present their projects, which were studied and validated by a panel of professionals.

This project facilitated support for creation and production by placing artists in a situation of heightened creativity, challenging them to showcase their work to the public.
